Designs for Health PaleoGreens™

Now available in lemon-lime, mint, or unflavored

PaleoGreens™ is the great tasting Designs for Health greens food made with over 70% organic ingredients. PaleoGreens™ is special not only because of its extraordinary formula, but also because we meticulously cultivate and protect all the precious constituents contained in it. We work closely with our certified organic growers to ensure the optimal preservation of enzymes and beneficial phytonutrients in PaleoGreens™ ingredients. These ingredients are harvested at their peak of potency and immediately concentrated and dried by utilizing proprietary cool-temperature processes that preserve their energetic and nutritional integrity. Studies have shown that these unique technologies offer unprecedented protection of the enzymes and other valuable phytonutrient constituents. Our PET packaging further protects PaleoGreens™ from damaging light, oxygen and moisture after bottling.

The vegetable, fruit, and berry ingredients are brightly colored and non-oxidized, as the powders are protected from heat, UV light and moisture from start to finish. PaleoGreens™ contains three times the amount of chlorophyll as compared to other formulations, and the chlorella is a specially cultivated easy to digest strain with a soft cell wall vs. hard cell strains requiring nutrient depleting “cracking” methods. Unlike other greens powders, we never add inexpensive fillers or bulking agents (such as fiber, whole grasses, pectin, rice bran, or flax), which greatly dilute potency, can be a source of genetically modified material, and interfere with the bioavailability of the fragile phytonutrients. In every spoonful of PaleoGreens™, you receive densely packed nutrition that intensely nourishes and strengthens every system in your body, resulting in sustained energy, enhanced recovery, mental clarity and overall well-being. We are certain you will find PaleoGreens™ to be the highest quality and best tasting greens product you've ever experienced.

Why are PaleoGreens™ unique and superior to other greens products?

- Over 70% organic ingredients
- Over 90% active ingredients compared to 40-60% filler in other formulations
- Paleo profile: no grains or legumes, low allergenic
- No alfalfa, a common ingredient in all other leading brands (which has been shown to aggravate autoimmune disease)
- Great taste, with no added sugars
- Predominantly freeze-dried vs. spray-dried ingredients (resulting in an ultra-low maltodextrin carrier content)
- Barley and wheat grass are 100% cold-processed juice solids vs. powders, resulting in 3 times the amount of chlorophyll of other greens formulation
- Certified organic spirulina which is unique to greens products
- Chlorella has a soft cell wall for better bioavailability
- Organic stinging nettles is flash frozen & freeze-dried
- Grape seed and skin is a water extract process - no chemicals or alcohol are used in the extraction process
- Kale, broccoli and cauliflower sprouts have been assessed to contain high levels of glucosinolates and sulforaphanes. Recent research shows these to be beneficial compounds in these sulfur containing foods.

[Lemon-Lime]

Supplement Facts

Serving Size 9 grams (approx. one tablespoon)
Servings Per Container 30

Amount Per Serving	% Daily Value
